

## Realtors Web Design Package

**JAMAXX Web Design** is offering a specially developed Web Design Package for Real Estate Agents. This package provides real estate professionals with a custom designed site that integrates with the "Open Realty" Listings Manager, a powerful web based script for Real Estate Agents. This package is valued at \$1,145.00, but JAMAXX is offering it now, at a **special value price of \$850.00**

### What You Get:

- Three hours of template customization where we will incorporate your company's branding into the Open Realty Listings Manager template design.
- Content (provided by the client) will be added for a site "home page".
- Content will be added for a site "About Us" page.
- Content for a Contact Us page will be added.
- A Privacy Policy Page that is compliant with Federal and Provincial legislation.
- Clients will have the ability to create new pages and add or update content; or we can do that for you. Additional pages with content are \$75.00 per page.

- **Each of the pages mentioned above would contain:**

- Up to 6 images (supplied by the client)
  - Content (supplied by the client)
- 
- Instruction and support on using the Open Realty Listings Manager.
  - 1 year of JAMAXX Small Business Hosting with Cpanel, AWSTATS traffic analysis, up to 6 email addresses, and many more features (details are available at [http://www.JAMAXX.com/services\\_hosting.html](http://www.JAMAXX.com/services_hosting.html) ) Additional hosting is \$9.99 per month..

### About the OPEN REALTY Listings Manager

- Ability to add an unlimited number of fields to listings.
- Support multiple property classes in a single install. (Residential, Commercial, etc..)
- Ability to define different fields for each property class.
- You can define which fields are searchable, through our easy to use administrative interface.
- Upload multiple images at once to listings.
- Open-Realty automatically creates image thumbnail for you.
- Upload Virtual Tours for your listings.
- Visitors to your site can signup as members, where they can save searches and get email notifications when new properties are added that match their search criteria.
  - Open-Realty Automatically places map, school, and neighborhood information links on your site for you.
  - Built in contact form provides an easy way for interested parties to contact you, without you having to place your email address on the site for spammers to gather and use.
  - WYSIYG Editor allows you to create and edit pages such as the contact and main listings pages on your site, without any HTML knowledge. Built in search engine optimizations help, ensure that your listings appear on the search engines, when buyers are looking.
